

## HiTOP Measures Development Workgroup

Mini-Conference Schedule

Monday, April 19, 2-6pm ET

### Location: Zoom

<https://buffalo.zoom.us/j/98403368718?pwd=U055c1pFQ1pXZ0F1SkI0cE96WktLUT09>

Meeting ID: 984 0336 8718

Passcode: 615975

**2:00 – 2:05 PM**

**Welcoming comments** – Len Simms

**2:05 – 3:00 PM**

### Workgroup progress

- *Summary of progress, immediate plans, and future* – Len Simms
- *Internalizing Spectrum* – David Watson
- *Thought Disorders Spectrum* – David Cicero
- *Externalizing Spectrum* – Stephanie Mullins-Sweatt
- *Detachment Spectrum* – Tom Widiger
- *Somatization & Eating Pathology* – Martin Sellbom
- *Discussion* – facilitated by Len Simms

**3:00 – 3:30 PM**

### Short-forms and spectrum scales: What forms should the final measure take?

Discussion facilitated by Ashley Watts and Holly Levin-Aspenson

**3:30 – 3:40 PM**

**Break**

**3:40 – 4:25 PM**

**Clinical utility** – facilitated by Doug Samuel

- *Interpretive issues and guidelines*
- *Validity scales*
- *Potpourri* – discussion of additional ideas to enhance clinical use

**4:25 – 5:10 PM**

### Diversity, Equity, Inclusion

- *Sexual Compulsivity, Sexual Orientation, and Stumbling Blocks in Externalizing Measurement* -- Craig Rodriguez-Seijas)
- *Is the HiTOP System Built Only for the WEIRD?* – Carolin Balling
- *Assessment of Psychosis Spectrum in Diverse Populations: The Importance of Measurement Invariance* – David Cicero
- *Discussion* facilitated by Craig Rodriguez-Seijas

**5:10 – 5:55 PM**

### Revisions vs. measurement — When the model and measure don't agree

Discussion facilitated by Liz Martin and Ashley Watts

Participants include Miri Forbes and Aidan Wright

- *What happens if/when results from the Measurement WG do not agree with the current HiTOP model?*
- *Should facets IDed from factor analyses of the HiTOP measures be explicitly incorporated into the model/figure?*
- *What constructs are currently missing from the HiTOP measures?*

**5:55 – 6:00 PM**

**Closing comments** – Len Simms
